For more information, including sponsorship and exhibitor opportunities, please contact Francis X. Vogel, WCC-SEA Executive Director, at (414) 221-4958 or at francis.vogel@we-energies.com.

National AFV Day Odyssey is developed and coordinated by the National Alternative Fuels Training Consortium with its national partners, and is presented locally by Wisconsin Clean Cities.

Wisconsin Clean Cities – Southeast Area (WCC-SEA) formed in 1994 as a voluntary, nonprofit organization dedicated to promoting cleaner air and energy security through alternative fuel development. WCC-SEA works with interested parties, particularly fleets, to reduce emissions, encourage the use of alternative fuels and alternative fuel vehicles, and develop the refueling infrastructure necessary to sustain the industry.
