

Nominations for the WPCA Recognition Awards

WISCONSIN
PARTNERS FOR

CLEAN AIR

The nomination process is easy!

- **By March 11, 2011 inform us of your intent to apply.** Contact Jessica at 414-263-8653 or jessica.lawent@wisconsin.gov
- **Following the nomination guidelines below**, describe in three pages or less what your organization did in **2010** above and beyond regulations to improve air quality.
- **By March 25, 2011 nominations must be received**

Previous winners may apply, but awards will not be granted for any two consecutive years. Also, companies/organizations with any pending environmental violations or violations that occurred in 2010 are ineligible so please check status with your environmental/legal staff or with the Department of Natural Resources prior to nomination.

Winners will not be announced until the Clean Air Extravaganza event on May 26th in Milwaukee (details are forthcoming).

Nomination Guidelines

∂ **Background:** Tell us a little bit about your company/organization. What do you make or do? How many employees work at your site? Etc.

• **What you do for cleaner air:** Provide a summary, including results, of the voluntary actions your organization took for cleaner air *last year* that went above and beyond regulations. For example, any quantifiable emission reductions from new equipment or technology, list of transportation benefits you offer, the number of people who participate in alternative transportation (carpool, bus, bike, etc.) and the associated emission reductions, the number of people notified about the importance of clean air through your newsletter, any community involvement, etc.

÷ **Ideas adapted to your organization's needs:** Think of actions that may have led to air quality improvement as well as addressing other issues at your organization. Include innovative ideas, methods, materials, or implementation strategies that have worked for you. Tell us about any benefits that derived from these actions (i.e., reduced demand for additional parking, assisted in new employee recruitment, reduced energy use and associated costs, eliminated a hazardous waste stream, etc.).

≠ **Submittal:** **Mail 3 hard copies of your nomination and any attachments and submit your organization's logo electronically.** You may submit everything electronically if the file is under 2MB. Attachments (optional) do not count towards the three page maximum and include samples of outreach material, photos, or other relevant material that you feel would help the judges evaluate your actions.

≡ **Contact Information:** Please attach your contact information or business card to your nomination *and* include the name and address of your CEO/director so we can send an event invitation.
